

## City of Lauderhill Pool Credit Request Form

The City of Lauderhill Water and Sewer Department allows a credit once every 12 months for a swimming pool that is fully emptied and re-filled. The sewer portion of your bill will be adjusted for the amount of water consumed.

Once the completed request is received via mail, fax or email the Department will calculate an adjustment based on the dimensions of the swimming pool. A \$14.02 administrative fee for reading the meter and/or verifying that there has been a corresponding increase in consumption is applied to every account that is granted a pool credit. Your credit will be reflected on your next bill. Please pay your current bill in full to avoid any late fees or termination of water service. Accounts that are billed for water only and properties with sub-meters or separate sprinkler meters do not qualify for a pool credit. To qualify for this adjustment the water drained from the pool must not go down the Sanitary Sewer System.

After the swimming pool is emptied and re-filled, complete the following information and return via mail, fax or email as listed within 45 days of the occurrence. To return the completed form in person, contact us for hours and operation or visit

[www.lauderhill-fl.gov](http://www.lauderhill-fl.gov) .

**Please be advised that splasher pools also known as "kiddie" pools do not qualify for pool credit.**
